To respond to the changing needs of the Company as well as changes in legislation, the policies and procedures may need to be amended from time to time and when this occurs you will be informed of these changes. If you have any questions about this Staff Handbook, please contact your manager.

2. NDA

All staff members will be required to sign a separate Richco Employee NDA (see attached). This is so that the Employee acknowledges that the Employer desires to protect its confidential proprietary information, that his/her employment creates a duty of trust and confidentiality to Employer with respect to its confidential proprietary information and, as a condition of employment or continued employment with Employer, Employee agrees to be bound by the terms of this Agreement.

3. Health and Safety Policy

The Company recognizes that it is responsible for ensuring, so far as is reasonably practicable, the health, safety, and welfare of its employees at work. The Company believes that the pro- active management of health and safety issues is an integral part of its obligations to its employees and to the wider community.

This policy statement sets out in broad terms the legal responsibilities possessed by the Company and by employees in relation to health and safety issues. It will only be possible for the Company to comply with these legal obligations if both its employees and any self-employed third parties on the Company's premises understand that they are under a duty to take reasonable care for the health and safety of themselves and any of their colleagues who may be affected by their acts or omissions and that they are required to co-operate with the Company to enable the Company to perform its obligations.

4. Equal Opportunities Policy

The Company's aim is to ensure that all employees and job applicants are treated equally irrespective of disability, race, color, religion, nationality, ethnic origin, age, sex, gender identity, sexual orientation, or marital status. The Company shall appoint, train, develop and promote - based on merit and ability.

All employees have a duty, both morally and legally, not to discriminate against individuals. This means that there shall be no discrimination because of disability, race, color, religion, nationality, ethnic origin, age, sex, gender identity, sexual orientation, or marital status. Employees have personal responsibility for the practical application of the Company's Equal Opportunities Policy which extends to the treatment of members of the public and employees.

Managers and supervisors who are involved in recruitment, selection, promotion, and training of employees have special responsibility for the practical application of the Company's Equal Opportunities Policy. The Grievance Procedure is available to any employee who believes that he may have been unfairly discriminated against.

Disciplinary action under the Disciplinary Procedure shall be taken against any employee who is found to have committed an act of unlawful discrimination. Discriminatory conduct and sexual or racial harassment shall be regarded as gross misconduct. If there is any doubt about appropriate treatment under the Company's Equal Opportunities Policy, employees should consult their manager.
