6. Accident Report Form
7. Health & Safety Policy

# 1. INTRODUCTION

As a responsible employer, it is our duty to bring this policy and any revisions made to this document, to the attention of all the employees.

All employees will receive a personal copy of this Health Safety and Welfare Policy. However, employees are reminded that their copy of this Policy remains the property of the employer and will be returned immediately on request.

The signed Health Safety & Welfare Policy of Richco International is displayed on the company premises and submitted to clients on request.

# 2. STATEMENT OF POLICY

It's the policy of Richco International to provide and maintain safe and healthy working conditions, equipment, and safe systems of work for all my employees and to provide such information, training, and supervision as they need for this purpose. I accept my responsibility for the health and safety of other people who may be affected by our activities.

The allocations of duties for safety matters and the arrangements that I will make to implement the policy are contained within the arrangement section of this document.

The policy will be kept up to date, particularly as the business changes in nature and size. To assure this, the policy, and the way in which it has operated will be reviewed at the beginning of each year.

# 3. RESPONSIBILITIES

**3.1. President,** Mr. Richardson has overall and final responsibility for the health and safety performance in the company. He is responsible for:

- Providing sufficient resources to enable arrangements within the Health, Safety and Welfare Policy to be implemented.
- Ensuring that appropriate insurance cover is maintained to satisfy both statutory and business needs.
- Supporting management and employees in the implementation of all aspects of this Health, Safety and Welfare Policy and supplementary safe systems of work.
- Ensuring that trained, competent persons only are employed by the Company.

**3.2. President -** Mr. D Richardson is responsible for:

- Ensuring that the objectives of this Health Safety and welfare policy are fully understood and implemented by all supervisors and employees of the Company.
- Ensuring that sufficient supplies of suitable safety equipment are available.
- Ensuring that Health Safety & Welfare is the priority on all development sites.
- Ensuring that by inspection, statutory records in relation to weekly inspection of all equipment (including hired) subject to mandatory Company inspections are maintained.
- Ensuring that site arrangements exist via site management for the executive communication to all site employees in all matters pertaining to health safety and welfare.
- Ensuring that effective systems are in place for the communication to all site employees in relation to COSHH, Risk, Manual Handling Assessments, CDM and CDC requirements and other matters relating to safety i.e., results of safety audits and inspections.
- Ensuring that injuries sustained to persons under his control receive prompt first aid, entries are recorded in the Accident Book and that Mr. Richardson is informed, in all cases other than minor.

**3.3. Employees** The Employees of the company consist of managers, office staff, tradesmen, and laborers. All employees are responsible for:

- Their own safety and the safety of others who may be affected by their acts or omissions.
- Wearing personal protective equipment.
- Co-operating with their employer in the discharge of his Health and safety duties.
- Reporting accidents, injuries, defective equipment and understanding that they must not interfere with any item provided for safety purposes.

# 4. ARRANGEMENTS

The Company's established 'arrangements' for ensuring the health Safety and welfare of employees are augmented by 'safe systems of work'.

### 4.1 The Control of Substances Hazardous to Health Regulations (COSHH)

The object of the COSHH is to protect the health and safety of persons exposed to substances hazardous to health in the workplace. Assessments are to be completed in respect of the scope of the Company's operations.

### 4.2 Noise at Work

Noise at Work is the preservation of persons hearing by the assessment of noise exposure. Resulting from assessment of noise emitting tools and equipment, findings of up 85 bdA will be interpreted as 'optional' wearing.
Over 85 dbA will be 'recommended'.
Findings of 90dba will necessitate mandatory wearing of issued protection, the display of approved warning sign and initiating procedures to attempt to eliminate noise hazards at source.

### 4.3 The Management of Health and Safety at Work

The Management of Health and Safety at Work require employers to protect anyone from harm because of anything which is done in connection with their business. For each site, areas of risk will be identified as an action plan developed by the Contracts Manager. Such plans, on completion, will be recorded and findings will be communicated to employees.

### 4.4 The Manual Handling Operations

Manual handling operations which may cause injury at work will be identified by the risk assessment carried out. They will include not only the lifting of loads, but also lowering, pushing, pulling, carrying, or moving them, whether by hand or other bodily force. The Company will record such assessments where applicable.

### 4.5 The Personal Protective Equipment at Work (PPE)

To set out the principles for selecting, providing, maintaining, and using PPE. The Company will:

- Give adequate information, instruction, and training on its use.
- Provide storage for PPE. When not in use.
- Ensure that PPE is properly used.

Suitable and sufficient PPE is stored and is free issue to employees, i.e.:

- Disposable dust masks
- Abrasive protection gloves
- Impact resistant goggles
- Safety helmets
- Safety footwear

### 4.6 First Aid

First Aid boxes will be carried in all Company vehicles. The location of First Aid boxes on sites will be by notice prominently displayed. Employees will be encouraged to take First Aid Training.

### 4.7 Fire Protection

Fire extinguishers to suit the material at risk, will be positioned at the exit and emergency exit points. All Company vehicles will carry a suitable extinguisher, the Contracts manger will arrange suitable training for employees to enable them to use the equipment in an efficient manner meet the risk.

### 4.8 Construction (Design and Management - CDM)

As principal Contractor, the Company will take account of the specific requirements of a project when preparing and presenting tenders or similar documents. Take over and develop the health and safety plan, co-ordinate the activities relevant contractors and sub-contractors and ensure they comply with relevant health and safety legislation and with the developed health and safety plan. In addition, they will ensure the provision of information, training and consultation with employees including the self-employed.

### 4.9 Safety Induction and Subsequent Training.

All employees shall be inducted on the dangers that apply to that particular place of work, the site rules will be discussed, and agreed Fire procedure, escape routes, location of extinguishers and Fire Assembly Point will be established.
All site employees will sign the register on completion of the induction program.

**4.10 House Keeping - Access/Egress.**

It is essential that all employees keep their workplace in a safe and clean condition. All waste material must be removed from the workplace to prevent it becoming an additional hazard. The disposal will be subjected to environmental awareness.

**4.11 Contracts and Visitors.**

All sub-contractors and visitors are required to wear the appropriate protective clothing, i.e., substantial footwear and safety helmets. All visitors are accompanied on site and contractors are obliged to work to SITE RULES.

**4.12 Environmental Awareness**

It is the intention of the Company to carefully manage all activities to reduce any potential environmental effect to a practical minimum. All staff are encouraged to demonstrate a continuing commitment to environmental performance as well as compliance with all statutory requirements for environmental protection.

# 5. SITE RULES

# 5.1 General Site Safety Rules:

1. Inform Mr. Richardson of any disability or illness that may affect your actions. (Color Blindness, Epilepsy, Diabetes, Vertigo, Claustrophobia, Deafness etc.)
2. You must not report for work under the influence of alcohol or drugs or take any drug during working hours. If you have any prescription drug that you must take, please let Mr. Richardson know.
3. You must report and record on the Richco accident form any injuries that occur on site. First Aid will be given by the onsite First Aid Attendant.
4. All accidents will be investigated by Mr. Richardson. A copy of the report will be sent to the Principal Contractor of the site.
5. Any unsafe condition that you are ware of must be reported immediately to Mr. Richardson.
6. All Safety Sign instructions on site must be always complied with.
7. Waste material and debris must be cleared up as work progresses.
8. Welfare facilities must be maintained in a clean and tidy condition.
9. You must be responsible for your own actions. Always be sure that you are following set procedures and are aware of risks involved in any work activity and any other persons that your actions may be affecting.
10. Do not be afraid to ask if you are unsure on anything.

**5.2 Personal Protective Equipment (PPE):**

- All Items of PPE will be issued by the Office upon receipt, they will be signed for. You have a legal duty to use and take care of any PPE you are issued with. If you need equipment replaced ask!
- Most sites are defined as Hard Hat sites and head protection must be worn. We will try to obtain permission to rescind this rule for workers whilst working on the Roof. If this cannot be arranged, then you must comply (Any offender will be disciplined). You will be issued with a hard hat that must be kept clean and checked for damage on a regular basis.
- Safety Footwear must be always worn on site. If you have none from a previous site, then you will be issued with new ones. Trainers and lightweight shoes are not allowed in the work areas.
- Further PPE will only be issued as required after assessments have been carried out on the risk that you are being exposed to. If you identify an area that you feel has been overlooked than you must inform Mr. Richardson.

**5.3 EQUIPMENT AND PLANT:**

- Safe use of ladders. All ladders are to be used with care. Ladders are to be used as a means of access. They should be secured or if not secured they should be footed until they can be secured. Tools and materials should not be carried whilst climbing or descending a ladder.
- All scaffolds will be erected by authorized scaffolders. Any scaffold erected for your use must be suitable for the task you have to do. If you consider any scaffold unsafe you must inform Mr. Richardson immediately. Never alter the position of any Guard Rail, Toe Board, Platform, Hop up or Scaffold Tie. (Disciplinary action will be taken against offenders).
- All trestle scaffolds will be constructed under the instruction of a supervisor. The method statement will state the maximum height of the working platform, where and when they can be used.
- No one will operate or use any plant or equipment unless trained and authorized by Mr. Richardson.
- Ensure that all plant and equipment that you are using are in good condition and fit for the job that is being undertaken. Plant and equipment operators are responsible for understanding the operating requirements of the plant and equipment they are using. If there is any doubt - ASK.
- Equipment and plant must be immobilized when left unattended.

# Employee's Report of Injury Form

**Instructions**: Employees shall use this form to report all work related injuries, illnesses, or "near miss" events (which could have caused an injury or illness) – *no matter how minor*. This helps us to identify and correct hazards before they cause serious injuries. This form shall be completed by employees as soon as possible and given to a supervisor for further action.

| | |
|---|---|
| I am reporting a work related: ❑ Injury ❑ Illness ❑ Near miss | |
| Your Name: | |
| Job title: | |
| Supervisor: | |
| Have you told your supervisor about this injury/near miss? ❑ Yes ❑ No | |
| Date of injury/near miss: | Time of injury/near miss: |
| Names of witnesses (if any): | |
| Where, exactly, did it happen? | |
| What were you doing at the time? | |
| Describe step by step what led up to the injury/near miss. (continue on the back if necessary): | |
| What could have been done to prevent this injury/near miss? | |
| What parts of your body were injured? If a near miss, how could you have been hurt? | |
| Did you see a doctor about this injury/illness? ❑ Yes ❑ No | |
| If yes, whom did you see? | Doctor's phone number: |
| Date: | Time: |
| Has this part of your body been injured before? ❑ Yes ❑ No | |
| If yes, when? | Supervisor: |
| Your signature: | Date: |

**Supervisor's Accident Investigation Form**

Name of Injured Person _____

Date of Birth _____ Telephone Number _____

Address _____

City _____ State_____ Zip _____

(Circle one) Male Female

What part of the body was injured? Describe in detail. _____

_____

What was the nature of the injury? Describe in detail. _____

_____

_____

Describe fully how the accident happened? What was employee doing prior to the event? What equipment, tools being using? _____

_____

_____

Names of all witnesses:

_____ _____

_____ _____

Date of Event _____ Time of Event _____

Exact location of event: _____

What caused the event? _____

_____

_____

Were safety regulations in place and used? If not, what was wrong? _____

_____

Employee went to doctor/hospital? Doctor's Name _____

Hospital Name _____

Recommended preventive action to take in the future to prevent reoccurrence.

_____

_____

_____

_____ _____

Supervisor Signature Date

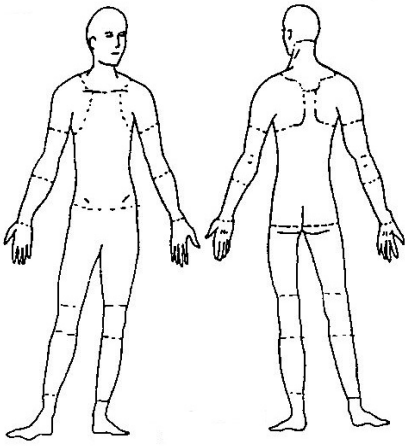
# Incident Investigation Report

**Instructions**: Complete this form as soon as possible after an incident that results in serious injury or illness. (Optional: Use to investigate a minor injury or near miss that *could have resulted in a serious injury or illness*.)

| | |
|---|---|
| This is a report of a: ❑ Death ❑ Lost Time ❑ Dr. Visit Only ❑ First Aid Only ❑ Near Miss | |
| Date of incident: | This report is made by: ❑ Employee ❑ Supervisor ❑ Team ❑ Other_____ |

## Step 1: Injured employee (complete this part for each injured employee)

| | | |
|---|---|---|
| Name: | Sex: ❑ Male ❑ Female | Age: |
| Department: | Job title at time of incident: | |
| Part of body affected: (shade all that apply) | Nature of injury: (most serious one)<br>❑ Abrasion, scrapes<br>❑ Amputation<br>❑ Broken bone<br>❑ Bruise<br>❑ Burn (heat)<br>❑ Burn (chemical)<br>❑ Concussion (to the head)<br>❑ Crushing Injury<br>❑ Cut, laceration, puncture<br>❑ Hernia<br>❑ Illness<br>❑ Sprain, strain<br>❑ Damage to a body system:<br>❑ Other _____ | This employee works:<br>❑ Regular full time<br>❑ Regular part time<br>❑ Seasonal<br>❑ Temporary<br><br>Months with this employer<br><br>Months doing this job: |



## Step 2: Describe the incident

| | |
|---|---|
| Exact location of the incident: | Exact time: |
| What part of employee's workday? ❑ Entering or leaving work ❑ Doing normal work activities<br>❑ During meal period ❑ During break ❑ Working overtime ❑ Other_____ | |
| Names of witnesses (if any): | |

| **Number of attachments**: | Written witness statements: | Photographs: | Maps / drawings: |
|---|---|---|---|

What personal protective equipment was being used (if any)?

Describe, step-by-step the events that led up to the injury. Include names of any machines, parts, objects, tools, materials and other important details.

Description continued on attached sheets: ❑

## Step 3: Why did the incident happen?

Unsafe workplace conditions: (Check all that apply)
- ❑ Inadequate guard
- ❑ Unguarded hazard
- ❑ Safety device is defective
- ❑ Tool or equipment defective
- ❑ Workstation layout is hazardous
- ❑ Unsafe lighting
- ❑ Unsafe ventilation
- ❑ Lack of needed personal protective equipment
- ❑ Lack of appropriate equipment / tools
- ❑ Unsafe clothing
- ❑ No training or insufficient training
- ❑ Other: _____

Unsafe acts by people: (Check all that apply)
- ❑ Operating without permission
- ❑ Operating at unsafe speed
- ❑ Servicing equipment that has power to it
- ❑ Making a safety device inoperative
- ❑ Using defective equipment
- ❑ Using equipment in an unapproved way
- ❑ Unsafe lifting
- ❑ Taking an unsafe position or posture
- ❑ Distraction, teasing, horseplay
- ❑ Failure to wear personal protective equipment
- ❑ Failure to use the available equipment / tools
- ❑ Other: _____

Why did the unsafe conditions exist?

Why did the unsafe acts occur?

Is there a reward (such as “the job can be done more quickly”, or “the product is less likely to be damaged”) that may have encouraged the unsafe conditions or acts? ❑ Yes ❑ No
If yes, describe:

Were the unsafe acts or conditions reported prior to the incident? ❑ Yes ❑ No

Have there been similar incidents or near misses prior to this one? ❑ Yes ❑ No

## Step 4: How can future incidents be prevented?

**What changes do you suggest to prevent this incident/near miss from happening again?**

❑ Stop this activity ❑ Guard the hazard ❑ Train the employee(s) ❑ Train the supervisor(s)

❑ Redesign task steps ❑ Redesign work station ❑ Write a new policy/rule ❑ Enforce existing policy

❑ Routinely inspect for the hazard ❑ Personal Protective Equipment ❑ Other: _____

What should be (or has been) done to carry out the suggestion(s) checked above?

Description continued on attached sheets: ❑

# Richco Health & Safety Policy

Richco International Inc, consider that the health and safety and the impact they have on the environment of their employees is of paramount importance to the Company achieving consistent high standards in all its activities.

It is therefore the policy of Richco International to develop a health, safety and environmental awareness culture throughout the Company which is committed to taking all reasonable precautions for the prevention of injuries and ill health to our employees, sub-contractors and others who may be affected by our work activities, to maintain a healthy environment and to prevent any damage or loss to property, plant, equipment, and the environment.

Every employee of Richco International has a role to play in ensuring that these aims are achieved, by acting with due regard for their own and others' health and safety. Richco International will provide the resources to achieve this aim, so far as is reasonably practicable. Every employee has a responsibility to co-operate with the Company to enable all statutory duties and obligations to be complied with.

The successful implementation of this policy requires total commitment from all levels of employees. Everyone has an obligation to take reasonable care for their own health and safety and the safety of others who may be affected by his or her acts or omissions. Adequate facilities and arrangements will be maintained for employee consultation at all levels on health and safety issues, to encourage active participation and feedback.

Richco International will always be committed to complying with health and safety legislation, adopt industry best practice and ensure that all aspects of the business take proper account of health and safety requirements. Every effort will be made to set standards that are the highest achievable, consistent with efficiency and technical excellence. To achieve this aim, training, instruction, formal procedures, and monitoring systems are provided.

The Richco International Health and Safety organization together with individual responsibilities and arrangements are also set out in the Richco International Health and Safety Manual which complements this policy. This policy will be regularly monitored to ensure that these aims are achieved. It will be reviewed and, if necessary, revised in the light of legislative or organizational changes and communicated to all employees and those associated with our business in accordance with our program of continuous improvement. The Company is committed to the success of this policy.

Signed

D. Richardson
Health and Safety Director
