Vehicles & Reporting Issues.
It is extremely important that if there is any accident or damage to the vehicles that it is reported immediately. Accident do happen, however on the case of negligence $500 will be deducted from the responsible party (this is insurance deductible). There is a form on the Monday app to report any issues straight away.

Equipment
It has become apparent that staff members cannot be not bothered to allocate the equipment back to their appropriate location and therefore the vehicles / trailers and warehouse are becoming extremely disorganized and messy. No one is taking responsibility for cleaning or putting equipment back in its designated area. All people that are involved in loading up the vehicle without taking responsibility will have to allocate their own time to put this back right without payment from Richco.

Equipment/Machinery/Products
It is recently come to our attention that people are not taking care of Richco property or restoring it in it allocated area. It your responsibility to look after the equipment and to report any issues or if they require repairs and to report damaged goods. However, it is not acceptable to have equipment lost, stolen or damaged due to employee negligence. If any of the above item are found to be due someone responsibility it will be deducted off your next paycheck(s).

Updates
All employees must complete an update at the end of their shift – NO EXCEPTIONS!
